

Suboptimals and Representative
Structures

Compute the Structure
with Maximum Expected
Accuracy (MEA)

```
graph RL; A[Compute the Structure with Maximum Expected Accuracy (MEA)] --> B[Suboptimals and Representative Structures];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from right to left. The box on the right is shaded gray and contains the text 'Compute the Structure with Maximum Expected Accuracy (MEA)'. The box on the left is white with a black border and contains the text 'Suboptimals and Representative Structures'.
